Experience

Sep 2019 – Now
Jaime Gámez
jgamez@epesos.com

ePesos Android Developer
My main task has been to develop their Android App.
Learned to improve knowledge in Corutines, App Performance and UX.
We are actually moving to Flutter

Jan 2019 – Jul 2019
Francisco Martínez
francisco.martinez1@decathlon.com

Developer Trainee - Decathlon Spain
My main task was to improve the 'Paddle Trainer' Bot made with Dialog flow and Actions on Google.
Software development in Android platform to reduce Decathlon Information system claims (Tickets) from employees. And an Internal Android APP Named Decalinks.
I also had the opportunity to learn hands-on the Vue.js Framework and GCP.

Jun 2018 – April 2019
Rodrigo Castilleja
Rodrigo_58v@hotmail.com

Android Developer - OrganizaT
Learning new Architecture components as rxJava, API communication, and MD User Experience.

Jan 2018 – Ago 2018
David Daza Project Manager
ddaza@itesm.mx

Bot Developer - Mostla at ITESM
Physics lecture Bot for freshman and sophomore ITESM students. Using Dialogflow, Actions on Google, Firebase functions and Firestore.

Extracurricular

Jan 2018 - Dic 2018
"Sin Miedo a la Corriente" (Social service)
I provided Arduino classes to HighSchool students in order to promote Arduino development. Learning in the process, how to teach children system

Ene 2018 - Dic 2018
Android Instructor at Mozilla Campus Group
The idea was to help students to learn from scratch a mobile development tool. There were 38 students.

Certifications: BULATS B2
